

## Joint Declaration of Greater East Asia Conference

It is the basic principle for the establishment of world peace that the nations of the world have each its proper place, and enjoy prosperity in common through mutual aid and assistance.

The United States of America and the British Empire have in seeking their own prosperity oppressed other nations and peoples. Especially in East Asia, they indulged in insatiable aggression and exploitation, and sought to satisfy their inordinate ambition of enslaving the entire region, and finally they came to menace seriously the stability of East Asia. Herein lies the cause of the present war.

The countries of Greater East Asia, with a view to contributing to the cause of world peace, undertake to co-operate toward prosecuting the War of Greater East Asia to a successful conclusion, liberating their region from the yoke of British-American domination, and ensuring their self-existence and self-defense, and in constructing a Greater East Asia in accordance with the following principles:

1. The countries of Greater East Asia through mutual co-operation will ensure the stability of their region and construct an order of common prosperity and well-being based upon justice.
2. The countries of Greater East Asia will ensure the fraternity of nations in their region, by respecting one another's sovereignty and independence and practicing mutual assistance and amity.

3. The countries of Greater East Asia by respecting one another's traditions and developing the creative faculties of each race, will enhance the culture and civilization of Greater East Asia.
4. The countries of Greater East Asia will endeavour to accelerate their economic development through close co-operation upon a basis of reciprocity and to promote thereby the general prosperity of their region.
5. The countries of Greater East Asia will cultivate friendly relations with all the countries of the world, and work for the abolition of racial discrimination, the promotion of cultural intercourse and the opening of resources throughout the world, and contribute thereby to the progress of mankind.
